

1 Drawing solid figures

Draw the following solid figures on paper.

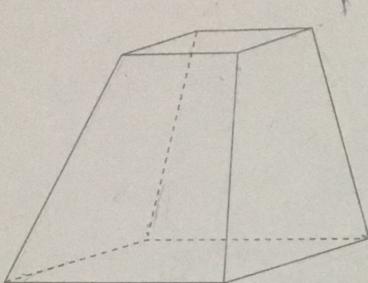

Right-angled triangle

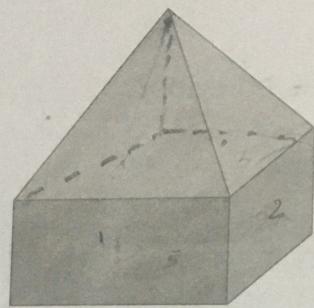

1. Complete the missing information in the table for the three solid figures below.

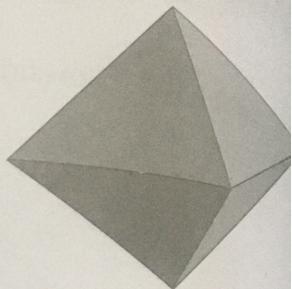

(a)

(b)

(c)

	Type and number of faces	Number of edges	Number of vertices
(a)	2 square faces, 4 trapezoidal faces	12 edges	8 vertices
(b)	4 triangular faces 5 rectangular faces	16 edges	9 vertices
(c)	8 triangular faces	12 edges	6 vertices

2. What solid figure can be made from each set of properties below?

(a) A curved surface and 2 circles

The solid is

Cylinder

(b) A rectangle, 4 slanting edges, 5 vertices

The solid is

Rectangular pyramid

(c) 3 identical rectangles, 6 vertices

The solid is

Triangular Prism

(d) A curved surface, a round edge and 1 vertex

The solid is

Cone
