

Worksheet 1 Squares

1. Find the perimeter and area of each of the following squares.

(a)

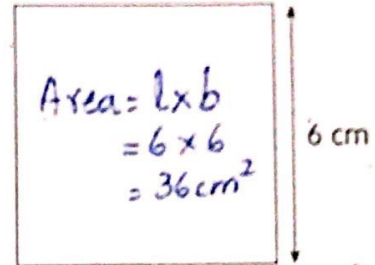

$$P = 4 \times l \\ = 4 \times 3$$

$$\text{Perimeter} = \boxed{12} \text{ cm}$$

$$\text{Area} = \boxed{3} \times \boxed{3}$$

$$= \boxed{9} \text{ cm}^2$$

(b)

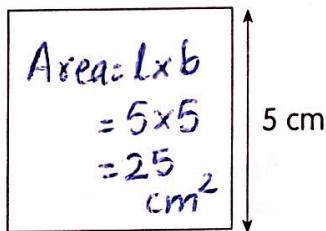

$$P = 4 \times l = 4 \times 6$$

$$\text{Perimeter} = \boxed{24} \text{ cm}$$

$$\text{Area} = \boxed{6} \times \boxed{6}$$

$$= \boxed{36} \text{ cm}^2$$

(c)

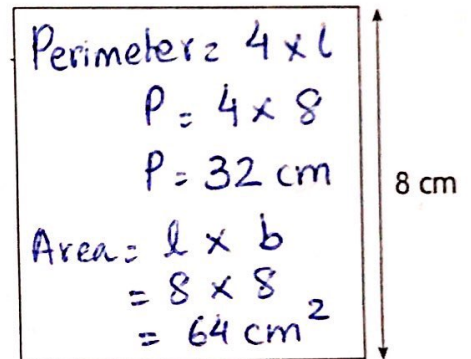

$$P = 4 \times l \\ = 4 \times 5$$

$$\text{Perimeter} = \boxed{20} \text{ cm}$$

$$\text{Area} = \boxed{5} \times \boxed{5}$$

$$= \boxed{25} \text{ cm}^2$$

(d)

$$\text{Perimeter} = \boxed{32} \text{ cm}$$

$$\text{Area} = \boxed{8} \times \boxed{8}$$

$$= \boxed{64} \text{ cm}^2$$
