

# WORKSHEET REVISION-2

LEVEL-7

SUBJECT: CHEMISTRY

TOPIC: WATER

Fill up the blanks:

1. Humans build \_\_\_\_\_ to store water for using it in their homes and in factories.
2. \_\_\_\_\_ are blown by prevailing winds towards the land
3. The \_\_\_\_\_ cause the clouds of water vapour to condense into water
4. Rain water picks up dirt and chemicals such as \_\_\_\_\_
5. The \_\_\_\_\_ produced is clean and safe to be pumped into rivers and sea
6. \_\_\_\_\_ is bubbled through sewage in the aeration tanks to help bacteria digest organic waste

Define the following:

1. Water cycle:

---

---

---

2. Aquifers:

---

---

---

3. **Chlorination:**

---

---

---

**Answer the following:**

1. What is water pollution?

Ans:

---

---

---

2. What is sewage treatment?

Ans:

---

---

---

3. Explain the main stages that involved in sewage treatment?

Ans:

---

---

---

---

---

---

---

---

4. Write the uses of water?

Ans:

---

---

---

---
